

Certificate of Authenticity

This certifies that these GTIN-12 (UPC)/GTIN-13 (EAN) are hereby transferred to the assignee listed below and are registered in the Nationwide Barcode database as owned by the assignee. Nationwide Barcode certifies that these numbers have never been previously used nor associated with any products.

The assignee owns and may utilize the 'quantity of' and 'span of' GTIN-12/GTIN-13 numbers listed and may not create any additional or derived numbers outside this set including the preix except as part of the numbers listed. The assignee's usage of the GTIN(s) indicates full understanding and agreement of the Nationwide Barcode Terms of Use/Terms and Conditions.

The GTIN-12/GTIN-13(s) listed indicate a span of numbers from the first to last number transferred to assignee and do not indicate the final number/check-digit.

The full and complete set of numbers including the check digit can be found by viewing the Excel Spreadsheet and/or barcode graphics.

The leading "(0)" indicates the leading zero for a GTIN-13/EAN and is used outside of US/Canada.

The leading "(0)" is ignored for GTIN-12/UPC and is used inside the US/Canada.

The "(x)" below indicates the final number (checkdigit) and is used for both GTIN-12/GTIN-13.

NNNNNNNNNNNNx = GTIN(12)/UPC

ONNNNNNNNNNNx = GTIN(13)/EAN

Date: October 7, 2012

GUARANTEE

DIGITAL MARKETPLACE (Amazon, Walmart.com, Etsy, EBay, Google Merchant, etc):

Nationwide Barcode has a 15-day 100% refund guarantee from the date of purchase should you find that the UPCs/EANs are not working for any reason. (Limited to orders of 250 UPCs/EANs or less) After the 15-day period (and no longer than 90 days after purchase), at our option, we will replace the barcodes should you find that there is an issue. There are no refunds after the 15 day period. There is no guarantee or warranty after the 90 day period.

BRICK AND MORTAR: It is your responsibility to discuss 3rd party UPCs/EANs with your retailer(s) prior to purchasing. There are no refunds or guarantee.
